

A grand job you did leading our group

What a grand job you did leading our group this past week. My sister Nancy was very happy the way all of the events went, and went so smoothly. All of this was possible due to your hard work and knowledge of the profession. From my perspective, and I feel that I speak for all of our group, things could not have gone better. Many thanks for making my sister's birthday so special.

Very best regards.
